

## Profile:

My name is José Ramos and I'm a **professional landscape photographer** from **Portugal**, located in Lisbon.

- My website is located at [www.joseramos.com](http://www.joseramos.com) and I'm a very active at social media sites, currently with **41.600 followers** in **Instagram** (growing at an average rate of 4500 followers/month - <https://www.instagram.com/joseramosphotography>) and **32.000 followers** in **Facebook** (<https://www.facebook.com/joseramosphotography>).

• My work has been published several times in **National Geographic**, **Digital SLR Magazine**, **Practical Photography**, **Photography Week**, **The Telegraph** and many others. I've been writing blog articles and reviews which have great Google rankings and have been featured on **Petapixel**, the world's largest photography blog. I have had the pleasure of winning several international photo awards, including TIPA Award in Trierenberg SuperCircuit and an award at the 2018 International Drone Awards.

- I currently run **photo-tours in Portugal** with national and foreign clients and sell **prints** to all over the world.

- I have **extensive experience in collaborating with brands** and creating **synergies** with them. Over the years I've **collaborated with the following brands**:

- **BenQ International** – Ambassador; reviewer, prototype tester
- **Vivo Smartphones** – just finished an assignment, shooting fine art landscape images with a prototype of a soon to be launched phone; created images will be used in the launch.
- **Nisi Filters** – Ambassador, product tester
- **Venus Optics Laowa** – Ambassador
- **LG Portugal** – Portugal landscape photography ambassador
- **Mindshift Backpacks** – Ambassador, product tester
- **FLM Tripods** – Ambassador for the brand
- **Vallerret Gloves** – Ambassador, product tester
- **Skylum International** – one of the quickest growing photo editing companies – product tester, image licensing
- **Former** extensive collaborations with brands like **Manfrotto Tripods, Vanguard Tripods and Formatt Hitech filters**

## Selected Blog Reviews Examples:

- <https://www.joseramos.com/choosing-a-monitor-for-photo-editing-benq-sw2700pt-review/> - **BenQ International**, one of the largest international brands of monitors, invited me to **test** one of their monitors. I chose a specific model and made a recent review of it. It quickly reached the **first page** of Google indexing when searching for that specific monitor review. The brand liked the review a lot, so we made a long Skype session and decided to start a **close collaboration and be an Ambassador for BenQ**. I'll be the **first photographer in Europe** to use their On-The-Go accessory pack with their new 24 inch screen in Iceland, for which I'll write a review afterwards.

- <https://www.joseramos.com/the-quest-for-the-best-photography-gloves-vallerret-markhof-pro-and-competitors/> - An article/review showing my quest into choosing the best gloves for winter photography. Got **great public reception**, and the article was republished on the **world's largest photography blog, Petapixel** (<https://petapixel.com/2018/04/19/my-quest-to-find-the-best-photography-gloves/>). Started a close **collaboration** with **Vallerret** afterwards, one of the most respected photography gloves brand, chosen as my favorite on the review.

- <https://www.joseramos.com/nisi-medium-grad-filter-review/> - I've been an **Ambassador for the Chinese brand Nisi Filters since their beginning**. After collaborating with Formatt Hitech for many years, I could not refuse an invitation from Nisi, as their technology was clearly one step ahead of the competition. I've made some **reviews** of Nisi filters on the web, and this was the latest one, reviewing my favorite ND Grad filter of their lineup. When searching for **often used keywords** on Google like "ND filter Review", "ND Grad filter review"; "Nisi filter review", my **blog article appears on first page of Google search index**.
